Can Now Eat and Sleep in Comfort.

If troubled with indigestion or sleeplessness you should read what Miss Agnes Turner, Chicago, Ill., has to say: "Overwork, irregular meals and carelessness regarding the ordinary rules of health, gradually undermined it until last fall I became a wreck of my former self. I suffered from continual headache, was unable to digest my food, which seemed to lay as a dead weight on my stomach. I was very constipated and my complexion became dark, yellow and muddy as I felt. Sleeplessness was added to my misery, and I would awake as tired as when I went to sleep. I heard of Chamberlain's Tablets and found such relief after taking them that I kept up the treatment for nearly two months. They cleared my stomach, invigorated my system, and since that time I can eat and sleep in comfort. I am today entirely well."

Mrs. A. E. Sidenberder, Rockfield, Ind., states: "For an attack of bronchial trouble which usually assails me in the spring I find Chamberlain's Cough Remedy the only thing that gives me relief. After using it for a few days all signs of bronchial trouble disappears."

NOW IS TIME TO MEASURE MORALE OF OUR COUNTRY

SECRETARY M'ADOO TELLS LIBERTY LOAN WORKERS THIS IS GLORIOUS WORK.

FOR PERSHING AND HIS HEROES

Acid Test Is Applied In This Drive and Shirkers Will Be Marked Forever.

In an address to Liberty Loan workers recently Secretary of the Treasury McAdoo declared that this is the time to measure the wonderful morale of Americans. He said:

"There is hard work before you before success can be secured, but it is glorious work. Every dollar you provide brings us nearer to victory and to a righteous and enduring peace. Success means life to thousands of our brave men who, if we fail, must pay the price of that failure with their blood and find their final resting places far from their native soil, in foreign lands across the seas."

"I was asked not long ago what argument could be made for the Fourth Liberty Loan. I replied immediately, 'Pershing and our heroes in France!' No other argument is necessary. The American people know and feel the need of those men and are prepared to go the limit to supply that need."

"Who can measure the wonderful morale of great and glorious America—this unparalleled democracy of ours, which military despots have heretofore amused and deluded themselves by describing as incapable of organized effort and too cowardly to fight? In 18 months we have given the most inspiring and conclusive proof, not alone of the spirit and ideals of democracy, but of its power to organize and face successfully any foe, however unscrupulous and brutal. The despots who threaten democracy, the ideals it represents and the liberties of the world will be vanquished by the sword of democracy."

Our Marvelous Strides.

"What marvelous strides this great democracy has made since the Civil War! One has only to contrast the two periods to realize the splendor of our achievements. In the Civil War rich men hired substitutes to fight for them at the front, and stayed at home to make money out of war activities. In this war a draft law of impartial and universal application throughout the country has been passed and no substitutes are allowed. Wealth and poverty are leveled to precisely the same place. The rich man fights beside the poor man in the ranks and the burden of taxation, although borne by all the people and distributed widely, is imposed more heavily upon those best able to carry the load. The greatest tax bill in the history of the world has just been passed by the House of Representatives, unanimously. All honor to the men of both parties for this superb exhibition of patriotism."

Keep the Pressure High.

"Who is not thrilled by what Pershing and his glorious men have done already upon the field of battle? These untrained freemen of democracy have met the veteran fighters and the best-trained soldiers of autocracy and have vanquished them, not by foul means, but by fair fighting. They have already demonstrated that the power of righteousness and of democracy is irresistible, that the doom of autocracy is sealed and the day of reckoning near at hand."

"What we must do in America is to keep the pressure high. Now that we have the Kaiser and his brutal hordes on the run, let us not relax effort but intensify effort. Keep hitting hard and smashing harder. That is the way to win surely and quickly. That is the way to eliminate the Rhine; that is the way to open an American paradise under den Linden."

"We must maintain steadfastly the standards we have already set and surpass those standards whenever it is necessary to do so. By self-abnegation and sacrifice we must match, as far as we possibly may, the deeds of our sons upon the field of battle and thereby contribute to the victory which we are determined to secure regardless of the time required or the price paid, either in blood or in treasure, because without that victory there is neither security for the world nor hope for the future."

We Cannot Fail.

"One cannot fail to do his duty in this supreme time and expect to save his soul in the eternity before us. No man can shirk his duty without incurring the just reprehension of public opinion. The acid test will be applied and the shirker, whether from military service or in the field of labor or in the ranks of the wealthy, will be unable to withstand the finger of scorn which will be unerringly pointed at him. We must rise to the sublimest heights of patriotism, of sacrifice, of devotion, of love of country, if we would not deserve to be cast into the depths of defeat and oblivion."

"Glorious America, glorious for what she has already done, more glorious for what she is now doing, and glorified for what she will do in the future and will achieve!"
